A self motivated software developer with over 2 years in project experience, in Website Development, Graphic Designs, UI/UX Designs, Search Engine Optimization and lots more. Resourceful, talented, dedicated and passionate in tech, I connect with people at all levels and shared creative and innovative ideas focused on problem solving and corporate growth.

PROJECT EXPERIENCE

RESERVATIONS APP.

Technologies used: Django, HTML, CSS, JavaScript, MySQL

- Creates virtual environment using pipenv tool to manage app dependencies.
- Implements the MVT architectural structure of Django to display, store and create logic.
- Creates form which accepts users input and reservation requests.
- Solves the issues of being able to make online reservations by customers.

RESTAURANT API.

Technologies used: Django, Django Rest Framework, React, Djoser

- Installs Django and Django rest framework in building restful APIs.
- Implements CRUD operations using function and class based generic view.
- Implements rest framework serialization and render data in JSON format.
- Implements Token and Session Authentication using Djoser library.
- Builds a frontend app using React and integrates it to Django backend server.

E-COMMERCE SITE.

Technologies used: Django, HTML, CSS, JavaScript, SQLite

- Creates an E-commerce site for online shopping.
- Integrates app to PayPal, to enable users make payments for their goods.
- Users can now shop online and make payments with ease.

WORK EXPERIENCE
